

Summary of activities, obligations, and enrolment conditions

Conditions to enrol the same year again	Conditions to enrol 2nd year	Conditions to enrol 3rd year	Conditions for obtaining the degree (dr. sc.)
Submitted and accepted positive <i>Supervisor's Annual Report</i> .	Submitted and accepted positive <i>Supervisor's Annual Report</i> .	Submitted and accepted positive <i>Supervisor's Annual Report</i> .	1 paper in a journal from the Q1 or Q2 quartile (<i>WoS</i>) with primary contribution, or 2 papers in journals listed in <i>WoS</i> (1 in Q1-Q3) with primary contribution on one.
Submitted and accepted <i>Doctoral Candidate's Annual Report</i> .	Submitted and accepted <i>Doctoral Candidate's Annual Report</i> .	Submitted and accepted <i>Doctoral Candidate's Annual Report</i> .	At least 20 ECTS points in the category <i>Internationalisation of research</i> .
Other obligations from the <i>Study Contract on Studying and mentorship</i> (if such exist).	All differences passed (if exist).	Seminar during which <i>Thesis Topic of the Doctoral Dissertation</i> is presented. ²⁾	At least 20 ECTS in the category <i>Elective activities</i> .
	<i>Seminar in Physics</i> passed. (5 ECTS)	Submitted, accepted, and publicly defended <i>Doctoral Thesis Topic</i> (at least 5 ECTS). ²⁾	Dissemination on an international scientific meeting.
	One course passed from the group <i>Compulsory part of the Specific study</i> (10 ECTS)	Passed all enrolled courses in the <i>Study Programme</i> (at least 30 ECTS).	Seminar during which <i>Doctoral Dissertation</i> is presented ³⁾
	Submitted, accepted, and defended <i>Doctoral Work Research Area</i> (at least 5 ECTS). ¹⁾	Other obligations from the <i>Study Contract on Studying and mentorship</i> (if such exist).	Submitted and positively evaluated <i>Doctoral dissertation</i> (at least 90 ECTS)
	Other obligations from the <i>Study Contract on Studying and mentorship</i> (if such exist).		At least 180 ECTS points acquired in total.
			Successful public defence of the <i>Doctoral Dissertation</i> .

Notes:

¹⁾ Before submitting application for *Research Area of the Doctoral Work* candidate must pass the course *Seminar in physics* and (at least one) course from the group *Obligatory Part of the Specific Study* (in which every course carries 10 ECTS points). The candidate also must pass all the differences received when entering the study (if such exist).

2) Seminar must be held before submitting application for *Thesis Topic of Doctoral Dissertation*.

3) Seminar must be held before submitting the *Doctoral Dissertation*.

For more details one should consult the document *Regulation on the Postgraduate University (Doctoral) Study Programme in Physics at the Department of Physics of the University of Rijeka*.
